Jun 19, 2018	Joseph Horgan	As the hot weather came upon us, our A/C stopped working. (We hadn't used it yet this year, and had some trouble with the thermostat.) Dwight came out and in short order, our A/C is up and running!
Jun 12, 2018	Jacquelyn S.	I would like to highly recommend your serviceman Henry. He was prompt, efficient, friendly, and tidy. He quickly installed a filter (that I have done myself with great difficulty) and wiped everything clean before and after. He was so interested in a kit that I had bought on line for my Aprilaire filter. It included the pink insulation for the sides of the filter. He had never seen this before and said that his customers were often upset by ;the filth of these parts. It was great to find a serviceman so pleased to do a good job. Send Henry back for my next checkup!

May 09, 2018	Ira W.	This company installed our furnace about 16 years ago and we were impressed since Kevin, the salesman, did not advise us to buy a more expensive unit. Now, after 16 years, our AC stopped working, and we were prepared to replace and perhaps spend nearly \$4,500. But, Kevin called! He told us he had looked up the serial number of our unit, recalled selling and installing it for us, and recommended that we repair it rather than replace it, for under \$1,000. He said doing so would probably give us another 4-5 years of service because he was familiar with the reliability of the unit. WOW! He just saved us nearly \$4,000. They have been doing our annual maintenance in summer and winter and have always been on time, professional and reasonable. Can't expect better service or honesty.

Mar 15, 2018	PN	The company was very nice, and worked with our schedule.
Mar 14, 2018	George T.	After being told by several other HVAC companies that our heat pump was shot and needed to be replaced, Davis & Davis diagnosed it as a stuck TXV valve... this was a quick fix and we were back on track. Kudos to D&D for being willing to dig a bit deeper. When we get to the point of needing to replace our heat pump, D&D will be at the front of the line!
Mar 05, 2018	John S.	I give them 5 stars! We called them just after new years for a heating call. Within a few hours they were at my home. They cleaned up before walking out & repaired the unit in no time. Prices were hefty but they were a pleasure to deal with.

Feb 23, 2018	Robert E.	We haven't really had any very dry days since the install so I can't tell how well it really works but there have been no problems or leaks. The whole installation was just great.
Feb 05, 2018	Sharon W.	We have a service contract that is supposed to give us priority for service. We have our furnace and air conditioner serviced every six months regularly. But neither our priority or our six month service have been of any help on this very cold day with no heat. Husband has called numerous times for service and no help. Also last time we had regular service the technician was sour and obviously didn't like our non aggressive dogs. Probably time to move on.
Jan 29, 2018	Pat K.	New equipment= good. Workers= good. Efficient and personable.
Jan 29, 2018	Judy P.	Davis and Davis was very efficient at telling me what needed to be done during the installation process. The men got the work done quickly and my furnace works just fine.
Jan 25, 2018	ELLEN M.	I would give 10 stars if I could. Very professional when I use them. A little expensive by I'd rather pay more for great customer service.

Jan 22, 2018	Howard L.	I had a great experience replacing my whole system. The installer was Roberto and his helper (didn't catch his name). Both of them were very professional, got here early; put down rugs to protect the floor and did everything very carefully. Good guys and did a well-done job.

Jan 08, 2018	Patrick M.	On one of the coldest nights of the year (or really for the last several years!), I needed a heating repair company to fix my furnace on an emergency basis and these guys came out a couple of hours after I called. He did a great job.

Jan 05, 2018	Daniel R.	We have been Davis & Davis customers for many years, and they have done an excellent job taking care of routine maintenance for our heating and air conditioning systems every season. Last night was the first time that we needed them for a true emergency - no heat, and it was 10 degrees out. We called at the end of the business day, expecting that we would have to wait until the next day for help. Nope. D&D scheduled an appointment that evening, and Henry stayed after hours to help get our system up and running again. D&D stocks common and uncommon parts on their vans, and not surprisingly, we needed the uncommon part. They had it. Our service tech Henry was awesome. Friendly, great guy. Even taught me about the system as he fixed it. I enjoyed the company almost as much as I enjoyed the heat! This is five star service at its best. Great techs, parts in stock. Reliable. There when you need them. Highly recommended.

Jan 04, 2018	Christina H.	Gave me an appointment quickly, called to confirm with me that morning, and solved the issue that day. I'm happy with the service and I will definitely recommend!
Jan 04, 2018	Dave C.	Once again, Davis & Davis comes through with a terrific installation. The four men who came to install our new upstairs furnace worked continuously to remove the old unit and install the new one. Each was professional, and extremely neat. They cleaned up everything when finished. This was the second complete install we have had and I can't say enough good things about the quality of the work Davis & Davis and their staff does!
Jan 02, 2018	Mike S.	They were awesome!

Jan 02, 2018	Ken B.	USE THIS COMPANY!!! They replaced a thermostat a little over a month ago and while we weren't positive that the cheap fix would still be enough, I'm happy to report that we're still warm!!
Jan 02, 2018	Margaret B.	Our heating pump was spraying water all over the basement one evening (a part had broken), and Thomas came out while they were having their office holiday party and fixed it right away. It was a cold night, so we especially glad they were so quick and helpful.
Dec 29, 2017	Rita P.	The installation I received was wonderful! Very friendly and cleaned up after the work was completed. Great job.
Dec 29, 2017	Marta G.	Excellent. Professional, timely and effective!Highly recommend!
Dec 29, 2017	Nesby L.	Davis and Davis... VERY reliable, the receptionist was nice, they accommodated an emergency request, must better service than elsewhere, save yourself the frustration.... ..
Dec 29, 2017	Mitsy Canto-Jacobs	12/29/2017 - Davis & Davis sent Eric H who came within the time range provided to me. Cost was lower than expected. We have heat again after two nights during the coldest winter temperatures in decades. Have been using Davis & Davis for about 10 years now and will not go back to the other DC companies. Good job D & D!
Dec 28, 2017	Paul H.	Very responsive, and super nice! The new heater is a little noisy but it's been really cold lately so I'll keep an eye on it.

Dec 28, 2017	Howard S.	Excellent service! I woke up to no heat, Burt came out and replaced a heating coil and the machine started right back up. Thanks
Dec 26, 2017	Greg S.	After having a most recent installation of a New Furnace I had to write this review about them. It all started with D&D in May 2009 when a old company I was dealing with did not return when I requested service on my old A/C unit and decided on D&D to come out to work on the A/C unit. In 2010 I decided I wanted a new A/C unit that they installed and is still working perfectly. In 2013 my old 20 year furnace would not start up and they came out with in two hours and repaired my furnace. My last dealings with them was this past November 2017 and this time my now 24 year old furnace had to be replaced since it would be dangerous to try to continue to use it. Timing was not at it's best since it was a day before Thanksgiving day. At my request the technician (Craig) was able to get a sales representative (Dennis B.) and he took the time to answer all my questions and to show what furnaces they had available to install and models for my home. Due to Holiday new furnace installation took a bit longer which I fully understood even before I was told it would. Furnace installation took about 8 1/2 I would like to thank also the past Technicians that I have had

Dec 22, 2017	Karen Woodside	<p>My heat stopped working on the coldest day of the year. I called Davis & Davis and was given an appointment that evening. The technician came and within 15 minutes had my heat going. He cleaned up after himself and left my house in the same condition he found it in. I have dealt with Davis & Davis for years and they are professional from the phone call to job completion. Thanks for a job well done.</p>

Dec 21, 2017	Gregory S.	First time with D&D was on May 2009 when old company I was dealing with did not return when I requested service on old A/C unit which D&D fixed to there best ability since there was a leak some were in the system. Later decided in 2010 to get a new A/C unit and D&D installed it and working perfectly. Needed D&D again in 2013 when my old 20 year furnace at the time would not start up and they came out with in a couple of hours and made a fast repair. My last dealings with D&D was in November 2017 and requested them to check on my furnace since it was making loud noises when it would start up. I was advised that it was no longer safe to use the furnace and it would have to be replaced. Per my request the Technician was able to get a sales representative to come out to see me the same day about a new furnace. He spent a lot of time with me to inform me about all the units they had and to answer all my questions. The new furnace was installed several days later because this all happen just before Thanksgiving Day. New furnace installation took about 8 1/2 hours. I would like to thank all at D&D that I have dealt with fro NEW FURNACE INSTALLATION

Luckily I haven't needed many service calls over the years, but every time I have needed service the response been prompt and the repair was completed efficiently by a knowledgeable tech! Saturday I needed to repair and and I couldn't have been more pleased with the tech, thank you Henry! One thing I would recommend is to provide the techs with rugged tablet to make it easier to look up part #s, complete invoices, etc. the investment in this tech would be well worth the investment!

Nov 12, 2017	Susanne S.	Warmest thanks and gratitude to your wonderful technician Dennis who saved us from freezing by talking me through a furnace fix on an icy cold Saturday night and coming in on Sunday morning for a full repair. I was not impressed with the ladies at the emergency switchboard - they basically said Davis & Davis was too busy to send someone and tough luck. But Dennis called back, walked me through troubleshooting the furnace via facetime, and actually got the heat back on this way. And the next morning, he came and repaired it all quickly and efficiently. Dennis deserves not five, but ten stars for going the extra mile to help. Davis & Davis get a star off for the unsympathetic attitude at the switchboard.

Thanks for terrific service to a couple of older people during a persistent period of hot weather.

Aug 15, 2017	Kelly S.	We had a man named Thomas service our A/C unit. He was very thorough and explained everything he recommended without trying to sell us something we don't need. Gave us a few options and we will be calling next spring to preventively check the refrigerant levels.
Aug 15, 2017	Ann G.	The boys performed in a timely and very professional manner. Truly assets to you all.

Aug 15, 2017	Marion B.	My air conditioner was 26 years old. I decided to replace it electively rather than waiting for it to break down. I called Davis and Davis, a company I had used for HVAC service in the. past. They very efficiently arranged an appointment. Kevin Smith evaluated my HVAC system, was most professional and clearly explained the options to me. I had done research and it was clear to me that Kevin's recommendations were reasonable. The office promptly scheduled Roberto and Kevin (a different Kevin) to install my new air conditioner. They were prompt, answered all my many questions, were clearly knowledgeable and very competent. I am thoroughly impressed with David and Davis.... the office, sales and technical personnel. The personnel had expressed that David and Davis is customer focused, and that fact was clearly and consistently demonstrated in my experience with them. I would go straight to Davis and Davis for any future HVAC issues.

May 27, 2017	Robert Henne	The HVAC went out and we were out of the country. We had people at our house and they were hot. We had to arrange everything from Italy with time differences and lack of consistant phone and internet service because of where we were. We decided to replace and not repair due to cost and age of unit. We also had another company look at it and D&D was a better price and I had used them before and was very happy with them, so we chose D&D. D&D was very kind and loaned out an portable AC so there would be at least one cool room until the new HVAC we decided on arrived and could be installed. The staff tried their best to keep us and our guests up to date on the status of the schedule and during the install. They were actually able to get it in about a week earlier than estimated. They installed the unit while we were still away and I must confess, I was a little worried about that. When I finally saw the install, I was very happy with it. There were a few bumps after the install, but they were all over it. Office staff and apparently the techs were all kind and easy to work with. They made a big problem, much easier to handle.
May 27, 2017	Bob Corlett	I've been a customer since 1993 in two different homes. They've always treated me right, never recommended anything that was not in my best interest, always kept the equipment in top condition. The staff is professional, and a deal's a deal. You cannot do better.

Sep 12, 2016	Diane M.	<p>We had a brand new air and furnace installed a few months ago. Something wasn't working right because the ac was having problems back in april. We called several companies to check on their prices. Many were too busy or very expensive but we found this company online, and they were priced well.</p>
Sep 02, 2016	Carol S.	<p>When we initially called, the service manager was helpful and seemed knowledgable to our repair issues and gave us a ballpark before coming out. My 95 year old father's air conditioning died in this brutal August heat. We called Davis & Davis at 8:30 am in the morning and they came out that day to do an estimate and on the following day they installed both a new central air conditioner and furnace (both were 35 years old) in about five hours. WOW. Everyone we dealt with was professional, answered every question, cleaned up after themselves and kept us informed at every stage. Plus they tested to make sure everything worked, and made sure we qualified for a Pepco rebate.</p>

Aug 31, 2016	Jeanette R.	<p>I needed a completely new system and had avoided for two years to get one -- until the heat really got to me in August of 2016. I reviewed Yelp and Angie List reviews and met with three vendors on 8/18 - all three provided different products and I went with the Davis and Davis based on the sales presentation and follow-up prior to my making selection. The new system was installed the following week - took less than 5 hours.....and I was highly impressed with the install team - from start to finish. I had no problem with the company and did not give them 5 stars as I strongly believe -- that a great sales is from finish to end....the sales and install ended - but no one called to ask me how are things going and if I am pleased with the service. It would have been a difference to me.</p> <p>However, even without the follow-up call - I strongly recommend Davis and Davis for your HVAC needs.</p>

Jul 22, 2016	BRIAN C.	<p>They are very reasonable with their prices and have great customer service!</p>
Jul 22, 2016	Mark C.	<p>FIVE STAR SERVICE</p> <p>The job was done fast, slightly more than they quoted me, but its working great so thats a relief.</p>
Jul 22, 2016	Gail H.	<p>My hvac system had stopped functioning properly so I called DnD who have been at my house for many, many years. They're still doing great.</p>

Apr 28, 2016	Robert H.	<p>Two words that describe Davis and Davis are reliable and careful. We used them to install a furnace in our older house, and although the price wasn't the cheapest, their attention to detail and communication about the project were above the other contractors' estimates. The quality of the work is also top-notch -- the system looks like it has always been there.</p>
Apr 27, 2016	Heather N.	<p>Dwight is great. Thanks</p>
Apr 27, 2016	Margaret G.	<p>Installed our hot water heater. Professionals through and through. Will use again</p>

Apr 27, 2016	John D.	The professionalism and responsiveness to our house not having heat have exceeded my expectations! It was a little chilly and my wife noticed that the furnace light kept going out. A guy came out a couple of hours later and got it fixed quickly. I very much appreciate the sense of urgency from the staff.
Apr 27, 2016	Joe P.	The team was fantastic and I couldn't recommend them enough. We got a few bids from different places while we were looking for a full system heat pump. Their bid was reasonable and it felt the most thorough and honest. He looked around the house, and made some suggestions. We ultimately went with Goodman for our HVAV. When the crew actually arrived it was so easy, I didn't have to worry about anything. Each person worked hard, efficiently and they took great care of the house. NO MESS. In summation, I would go to Davis and Davis before anyone. You won't find someone better. These guys knocked it out of the park and I am thrilled.
Apr 26, 2016	Dorleen D.	Excellent service! Very professional - both appointments were on time. Communications were great. The crew that did the installation did a good job. Apr 21, 2016	Donald C.	I have had excellent experiences with them and recently got a new unit installed. They arrived on time, worked and when finished, cleaned up so you wouldn't know anyone was working in the basement. A guy spread drop cloths to protect the floor.

Apr 21, 2016	George M.	My pump wouldn't stop running. Tech came on time. Smart. Diagnosed the problem. Replaced it.

Apr 20, 2016	Greg M.	They are awesome and installed our AC. They were patient with our questions and took time to make sure we were comfortable.
Apr 20, 2016	Mindy H.	Positive from start to finish. I have had excellent experiences with DnD and recently Chris. He arrived on time, worked well and finished quickly. Great attitude, easy to talk to and just a great guy. He is always welcome to come back!

Apr 11, 2016	Yuhee K.	Spent lot of money on new systems but hoping to save money from energy rebates. We have always been happy with our product and services. I try to refer friends their way.
Apr 11, 2016	Neil M.	Thank you. They installed a new a humidifier at my house and while it didn't work a week later, they came out made an adjustment and its all going good.
Apr 11, 2016	Merrill M.	Kevin and Fred were both pretty good, I recommend talking to them at the office. To express my gratitude is not enough for what davis and davis heating & ac, have done for my family and I. Evan has maintained our air-conditioning unit on a regular basis, and always willing to go above and beyond the call of duty. My family greatly appreciate their efforts.
Apr 11, 2016	Bruce D.	Davis & Davis is the only HVAC that I call. They do an excellent job. They are fairly priced and are neat and clean up behind themselves.
Apr 08, 2016	Bryson F.	It is really great knowing when you hire someone to do a job, and they do it well. Davis and Davis Heating and AC are staffed with knowledgeable and efficient technicians who are obviously educated in their line of work.
Apr 08, 2016	Eric T.	Thank you for being so great. I now have a brand new furnace, and I have Davis and Davis to thank for that!
Apr 08, 2016	Udo R.	The guy that came out was so helpful in explaining how to keep the unit in its best shape for as long as possible. I really appreciated his work ethic. The repairman that came out was very nice. He was courteous and made sure to let me know before he did anything that was more money. After all the servicing was done he threw out the old filter and made sure everything was nice and neat before he left.
Apr 07, 2016	Nancy S.	The installers that came out to my home were great. They were on time, did a great job. We have used Davis and Davis for over 20 years and have always been more then satisfied with the service from them. I would certainly recommend this company!

Apr 07, 2016	Julie D.	I had a great experience with your company. The company was communicative and delivered on its promise to me. My humidifier was not working when I woke up this morning and it is working now.
Apr 06, 2016	Frederico C.	I look forward to working with Davis and Davis in the future. Thank you Erick!
Apr 06, 2016	Keith D.	My family's furnace was acting up. Erick came out and told us the motor is locked up. We thought we'd need a new furnace but he said that everything else looks good and the motor should be good enough. A technician came out because our a/c wasn't working, it was old and needed to be replaced. The next guy that came out gave us an estimate and it was cheaper than everyone else so we decided to get a furnace as well.
Apr 06, 2016	Brian Z.	Called these guys and had them out for the first time because we had no air conditioning; turned out that the compressor was shot and really old.
Apr 06, 2016	Emily O.	We had an estimator out a couple days later and then some workers installed a brand new air conditioner the following week. Thanks for coming out so quick when we had no heat. It turned out to be the batteries in the thermostat but the technician did an inspection while he was here so we didn't just have to pay for the service call.
Mar 08, 2016	Ron T.	Spent a lot of money on a motor and repair, but they got it all done in 1 day and thats whats most important.
Mar 08, 2016	Jane M.	We have heat now and we're doing great. Appreciate all the work you do!
Mar 07, 2016	robert a.	I came home from work and found that the house had no heat, Fred came out and replaced a few parts and fixed it!

Mar 07, 2016	JOHN R.	WE GOT A LOT OF THINGS REPLACED A COUPLE OF WEEKS AGO.
		FURNACE, AIR CONDITIONER, HUMIDIFER AND EVEN A WATER HEATER. THEY DID A GREAT JOB ON ALL AND WE EVEN GOT SOME MONEY BACK FROM PEPCO.
		THANK YOU
Mar 07, 2016	Timothy F.	My wife and I thought it was time to get a new hot water heater so we called Davis and Davis for an estimate. The estimate was good, the heater got replaced quickly, and it passed inspection.

Mar 04, 2016	Walter J.	The hermidifier on my unit wasn't working properly and a technician came out the next morning. We're doing fine now. Plenty of heat and the hermidifier is doing great. We're A-Okay!
Mar 04, 2016	john r.	They do all of my houses and they really always do the best stuff
Mar 04, 2016	Joseph H.	Jimmy at Davis and Davis just called me to check on a hot water heater installation that we got done a few weeks ago. It was good to hear from them and the call even reminded me to get the wssc inspection done and over with so thanks!
Mar 04, 2016	Roger F.	Started using davis and davis a few years ago when we needed 2 ACs. We were impressed with the price and service so we stayed with them and they now just installed 2 more furnaces. Everything is working fine.
Mar 04, 2016	Dorothy B.	Earlier this year, our humidifier fell off the furnace so we called Davis & Davis, who have been working on our system for years. We also asked for Eric, a technician we've used most frequently. And to our surprise, Eric was the one to actually install the system. He's been our favorite tech and is very efficient.
Mar 01, 2016	Karen L.	Me and my family wanted to do a huge overhaul of our old heating and air conditioner systems but we were weary about the prices. When an inspector came out for seasonal check, we told him this, and he said we should call the office and see if would qualify for any rebates. We got a nice Lennox rebate and a pretty hefty rebate from pepco for installing our new systems and it feels great to have modern systems in our house now.
Feb 29, 2016	Rose G.	A technician named Chris came out to see our furnace and said we needed a new motor. The motor and install were kind of expensive, even the guy that ran the parts department said the motor was unusually expensive, but they came back the same day and it is working great.
Feb 29, 2016	Gerald L.	We had them install a new heat pump and air conditioner, and while it is a little loud; they called me to check up on everything and are sending someone out. Kevin, Dan, and Mike were very careful moving out the old unit and putting the new one in. They were also very nice.
Feb 29, 2016	Marylou J.	Davis & Davis have been going coming to our house for over 10 years and we've had the pleasure of having Chris for the majority of our checkups. Chris recommended replacing our system this year, stating that it's on its last leg and that leg was about to give away. Kevin came out the following day and quoted me for a new furnace and air conditioner. And all is well in the Johnson house!

Feb 26, 2016	Amy M.	<p>Our heat wasn't keeping up with the thermostat so we called davis and davis the next morning, then a mechanic named Craig came out that afternoon.</p> <p>Our hearts sank as we expected an expensive fix but Craig said all the parts look good, cleaned some kind of sensor, and the heat has been working great since.</p>
Feb 26, 2016	Gary D.	<p>Thanks Craig!!</p> <p>Kevin and George took out our ancient furnace and installed a brand new one last week. These guys were intelligent and answered any questions I had, and I had a lot!</p> <p>Kevin was especially helpful in explaining the oncoming inspection process, and when the county inspector came out, the furnace not only passed but he also spoke highly of Davis and Davis.</p>
Feb 25, 2016	Jason W.	<p>It was a pleasure to work with Dennis at Davis & Davis for the installation of our new home furnace and a/c unit. Dennis and company exceeded my expectations and my wife and I are very happy with the installed furnace and air conditioner. In the fall of 2015, we converted from oil heat to natural gas in Montgomery County, Maryland. Davis & Davis was the third contractor that gave us estimates on this project. All three contractors ended up recommend the same type of furnace a/c package for our house. Two stage furnaces with a "variable speed" blower combined with high efficiency a/c. Surprisingly, the Costco/Fuhr package was the most expensive at approximately 20,000. Even with the 10% Costco rebate card (good for use for even more Costco purchases) this was more than \$4,000 more than D&D. All of the sales representatives were very polite and appeared to be very well informed. Davis and Davis did not appear to be as committed to a particular product line as the other companies and was happy to field questions about units that were not originally recommended.</p>
Feb 25, 2016	Marie J.	<p>So my heater stopped working at like 8 at night, I called this company out (saw them in the yellowpages) and was surprised someone even answered the phone. They couldn't come out that night but someone came out around 9am the next morning and got it working until some motor we needed came in.</p> <p>Super, super, super happy with the service. I hope nothing else happens with my house but I know I can call these people out.</p>
Feb 25, 2016	paul r.	<p>I called them out because our boiler wasn't working. Turns out our boiler needed a new valve but it was a type of boilers that plumbers work on, not hvac. The man was very nice and competent though.</p>

Feb 25, 2016	M C.	We had dnd install an air conditioner a couple years ago and were very impressed. They installed a furnace this year and its doing awesome!
Feb 25, 2016	John R.	Got a furnace installed and its doing well. Very pleased with the install.
Feb 11, 2016	Danny B.	We got a motor installed and everything is great. The 2 techs that have been out here deserve a big raise.
Feb 11, 2016	Mrs. K.	Smelled a burning smell and called them out. Smell is gone and everything seems to be working good now. Good because it will be cold again soon!
Jan 30, 2016	Carmen S.	At the height of the Blizzard of 2016, our furnace decided to die. Luckily, my husband brought his kerosene heater from the mountains of western North Carolina, which kept us pretty warm until the roads were finally plowed and Davis & Davis could get to us on Tuesday. When we called them in a semi-panic on Saturday night, they returned our call right away, then checked in on us every day to ensure that we weren't freezing to death or dead from carbon monoxide poisoning. When Craig came to assess the situation, he asked about flu-like symptoms and used his handy dandy little detector to test for carbon monoxide throughout the house. He reset the furnace and got it to run temporarily. Kevin came by to provide an estimate on Wednesday, and Craig came back on Thursday to measure everything. On Friday, Jorge, Zack, and Roberto swooped in to save the day. They were prompt, friendly, professional, and FAST! They laid down drop cloths everywhere that they stepped, and after carrying out our old dinosaur of a dead furnace, they replace it with a shiny brand new efficient one. They even filled out the Washington Gas ret
Jan 19, 2016	Jared R.	It was 13 degrees overnight and out heat stopped working. I called Davis & Davis at 8am, and they said they would get the part needed (we knew from the previous visit what the problem was) and would arrive between 9am-11am. Later that morning our heat was working. Thank you
Nov 30, 2015	Michael M.	Had an issue with thermostat not working. Easily scheduled them to come out and look at it. Problem was actually very easy to fix (water drain was plugged up and tripped the overflow switch) but technician did some basic tests and even looked into another problem I was having, completely unrelated to the original problem. The technician fixed that too, and all this in 1 hour. Very pleased with service
Nov 24, 2015	Cnb B.	They did a great job! Our old AC died in Sept during the Labor Day heat wave. They brought portable units and did the install two days later. They had the best estimate for a new AC and Air Handler of the four that I received. Our house old and the working space is not ideal. Very honest and good work. They actually talked us out of additional work we thought we needed. Sales and Service team were vary responsive.

Nov 24, 2015	Ed M.	<p>I found these guys by chance. I called in a plumber to do some work and mentioned that we needed a new A/C and he highly recommended this company. I am SO happy that he did. They gave us a good price to replace the system and we also decided to buy a humidifier. They came when they said they would be there, and installed them both that day. Honestly, I'm so glad we found them and my husband and I will continue to use them for our home and recommend them to others.</p>
Nov 24, 2015	Ed G.	<p>I'm very pleased with the service. That is why I had Davis and Davis for years.</p>
Nov 23, 2015	Jessica B.	<p>My mom's house had no heat and they came out the next morning. They got the heat working quickly because an ignitor wasn't working and they guy happened to have it on the truck. The only reason I'm not giving 4 stars is because I looked up the price online and their price was like 4 times that. But they were quick and got her heat going.</p>
Nov 23, 2015	Alfred B.	<p>Since this vendor was the preferred vendor for our neighborhood, we called them when the dehumidifer wasn't working properly.</p> <p>It was very easy to schedule an appointment.</p> <p>The technician was really nice and came to our place promptly but was unable to fix it because the part needed to be ordered.</p> <p>However, they found the part in the office and he came back that day.</p>
Nov 20, 2015	Stephanie B.	<p>I will use them again.</p> <p>My experience with Davis & Davis was wonderful from start to finish.</p> <p>The first time I called in (and every time after that) I was greeted with expert costumer service. Finding a time for someone to come to my home to help me find the problem with my air conditioning was painless and I was so pleased when they actually showed up on time. He walked me through what he found that needed fixing. It was comforting to have someone there that was knowledgeable and willing to explain it to me clearly. The actual installation of the new part was quickly done and efficiently done. There is always that lingering fear that the second a technician leaves, everything falls apart again. That wasn't the case with Davis & Davis. Everything has been working brilliantly since that time and I was able to make it through the summer because of their great work. I know exactly who I'll call if any problems show up again.</p>

Nov 20, 2015	Lee M.	We got a new furnace installed in the Spring and when we turned it on in October, it wasn't working properly. Turns out it was some kind of connection problem with the gas in our neighborhood. Davis and Davis came out and fixed it the next day.
Nov 20, 2015	Bette C.	We have a contract with davis and davis and we always request Tom. We trust him and the company, we even have our neighbor let him in.
Nov 19, 2015	Richard H.	They came out a few months ago to install a furnace and ac. All running fine, can't knock them yet!
Nov 19, 2015	Emily G.	Bought a furnace, AC and humidifier from them. No complaints, everything is working fine.
Nov 18, 2015	Ann G.	Had Davis and Davis install a furnace, the temperature is much more regulated and makes the house more please. We are pleased.
Oct 23, 2015	David H.	Very positive experience with replacing a 20+ year old HVAC system. Price was very fair, both sales and technical crew showed up on time. A six person technical crew installed the new HVAC system expertly and quickly - they were in by 9AM and were done by noonish. Just had the WSSC come out to give the permit and once they saw the Davis and Davis sticker they passed it quickly - they said themselves that they are a great company.
Oct 19, 2015	Cuqui S.	Not only were they prompt, but a very reasonable price. The service tech was very nice, explained in detail what was wrong and showed me the part. Definitely recommend this business & will use them again!
Jul 24, 2015	Eric B.	Enjoying my new HVAC unit! I'm VERY impressed with Davis and Davis Air Conditioning & Heating. They arrived on time, were super knowledgeable, worked quickly, efficiently, accurately and the head guy even made my cat Dixie purr!:-) Yes, they were a bit more expensive than the other guys, but you really do get what you pay for.

Jul 09, 2015	Adriano V.	<p>Yesterday I found some papers in the basement of my house related to the installation of a new HVAC in the house that I bought about three years ago. The papers are a proposal professionally prepared and issued by Davis and Davis back in 1996. It is a contract that comes along with a very detailed description step by step of the installation process of the new HVAC. After so many years the HVAC is still in place at my house, in great shape and in high performance and working conditions. I am really satisfied and happy.</p> <p>Reading this papers and looking at the HVAC system I realized that people at D&D are highly professional and committed. I can still see some small details and special steps the technicians meticulously took while installing the new HVAC. They did an impressive work on this installation. I hope that they still work with such high professional commitment and capability and I will definitely contact them to satisfy any my future needs in such field. Well done, good job,</p>

May 28, 2015	Dana Cook	<p>I want to shout out a big thank you to the Kevin and the Davis and Davis team who helped this past week during this extreme heat. Although you were already extremely busy you found time to fit us in to the schedule and everthing was fixed the same day. Many Thanks!</p>
May 28, 2015	Paul Seery	<p>Super nice....effective... transparent....will use them again</p>
May 21, 2015	Mark Mend	<p>Chris was the technician they sent to our house and he was very knowledgeable and courteous I would definitely recommend Davis and Davis for all your HVAC needs</p> <p>Davis and Davis did a wonderful job replacing the heater in my parents' home. Their prices were reasonable, they were extremely reliable, courteous, and clean. The workers arrived exactly on time, they even brought space heaters to keep everyone warm while they worked. They left the house in absolutely spotless conditions!</p> <p>Highly highly recommended.</p>

Feb 05, 2015	Gregory M.	<p>We have been customers of Davis and Davis for over 20 years. We have had a long standing service contract with them, which has worked out well for us. Stupidly I did not get my old furnace checked this year, for the first time in a long time. Of course it died in the cold of early January. Davis and Davis came out on an emergency basis the day we called. They found the right furnace somewhere and had it installed the next day. There was a problem (defective part, not their fault). They came out that Friday night, in the dark and cold, and fixed it. No charge, but more importantly they showed up. Furnace is working great now. I didn't have time to do much research in the moment, but some study after the fact shows that the equipment choice was appropriate and the price was fair.</p>

Jan 23, 2015 Aug 28, 2014	Anthony Elizabeth M.	<p>great company!</p> <p>We just had a very good experience with Davis and Davis. Night before last, our air conditioner started making a terrible noise, and died. It was maybe 8:00 at night, and we called the company thinking to get a recording. We got an actual human, who said that for an emergency fee they could send someone out that night! When we asked how soon a non-emergency visit would be, we were told the next morning ... that they could call us as early as 6am to schedule an appointment, and the first appointments were 8-10am. We decided the next morning was fine. A technician called, the appointment was scheduled, and he showed up promptly. The motor was found to be burnt out, and they had to order a replacement, which they did immediately. It was shipped overnight and was installed this afternoon. We were without air conditioning for less than 48 hours. Service was prompt, extremely friendly, and reasonably priced, and we were told exactly what to expect and when to expect it at every point in the process. This is quality customer service, without any attempt to pressure us to buy something we didn't need. I'm ve</p>
Jul 23, 2014	Dan H.	<p>We moved in to Wheaton in April and this week our AC started to go on the fritz. We selected Davis & Davis solely based on Yelp reviews and the fact that their main office is close to us. We are glad we did. The technician (Craig) showed up on time and called when he was about 30 minutes away letting us know he was on his way. He diagnosed our issue quickly (clogged coil and needed to add freon) and answered my most dumbest of questions as I tried learning about what he was doing. Really great all around, and we will definitely be signing a service contract with them. Their \$90 introductory visit special is a great deal.</p>
Jul 09, 2014	Pete K.	<p>Here's all you gotta know- the techs have been with D and D for years. The most indicative trait of any good outfit- employee selection and retention. I'm about a 10 yr. customer -service/maintenance contract, AC/furnace replacement, etc.</p>

Jul 07, 2014	Pat W.	<p>Yet again Davis and Davis has exceeded our expectations. We first started using them because my brother recommended them. We had a problem on a Sunday and a service person called us back and tried to trouble shoot. He actually determined the problem on the phone and was able to make sure the repairman brought the right parts when they came the following day. From then forward we have had an annual contract for them to check our system twice a year.</p> <p>Over this weekend our air conditioner stopped working. Turns out that it was our bad and it had actually frozen up. We called Davis & Davis, got a call back, and again the person on the phone was able to diagnose the problem and tell us what to look for to confirm that. It was fine the next day. Monday morning we got a follow up call. This is customer service.</p>
Jul 02, 2014	William N.	<p>John Harper was our estimator. He was on time for our appointment, took his time to assess our home heating equipment needs and provided several alternatives for equipment we could choose. He took his time with us and answered all our questions. He represented your company exceedingly well with his mild, no pressure approach.</p> <p>Mike Nester and Mike Howell are the two men who installed the piping in our home from the exterior corner wall of our home. Both men were cordial and peasant to work with throughout their stay at our home, and were very careful not to damage or soil any carpeting and other items in our home. They could not have been nicer.</p> <p>Rich Sherwood, Jorge Ramirez, and Roberto Zamora did the equipment installation and made sure that all "systems" were fully functional before leaving our home. These guys were a delight to work with! I really appreciate the extra efforts made by them regarding the placement of the hot water heater. Well done!</p>
Jun 12, 2014	Roger C.	<p>I also want to recognize Carmen (the office manger) who Thanks for the prompt, courteous inspection on my old A/C. My air handler is in a small attic so always ask to have Dwight do the check and do it early in the am. He was prompt and as always did a great job.</p>

May 28, 2014	Rich Wilhelm	We have been buying a service contract from Davis & Davis for 8 yrs to service a 16 yr old HVAC system. The same Service Tech has reviewed our system each Spring & Fall : Ivan kept our old system running. So when it was time to replace, we got several estimates, but were well taken care of by the high quality people at Davis. They are dependable & up to date on their technology. Davis & Davis installed a beautiful Lennox system & we know they are a sure bet on our home temperature systems!

Apr 09, 2014	Fred G.	It has always been a pleasure to have D&D take care of our hvac needs, this install went excellent.
Apr 09, 2014	Ann L.	The entire process was efficient. Our installers went above + beyond (leveled out our yard under both units while only replacing one) They did a great job!
Apr 09, 2014	jansmith	Davis & Davis did a good job, I was amazed at how quickly they got this installed.
Mar 11, 2014	Subscriber	Davis & Davis kept my old furnace running and showed me a temporary fix while I was waiting for the part. Highly recommend!
Feb 26, 2014	Checkbook S.	I have used D&D for more than 30 years during which time they have installed and maintained two complete HVAC systems in my house. Excellent work always.

Feb 12, 2014	Robert J.	We noticed that our furnace was making loud noises one night, so we called D&D the next morning, expecting our usual serviceman Dennis. A new technician (new to us) came out about an hour and a half later and told us that our furnace motor needs to be replaced. Unfortunately he said that they didn't have the motor so they'd have to order it and it takes 2-3 days. The next day I got a call from Chris, and lo and behold the motor had come in, he put it in and its been working great since. We've used these guys for 20 years, and while they don't always have the parts on them, they usually get them fast.
Feb 12, 2014	Eddy C.	davis and davis came out because our condinsate pump wasn't taking any water. The technician diagnosed and fixed the problem within in the hour. As always, I'm impressed.
Jan 19, 2014	Checkbook Subscriber	Work very efficiently in starting and completing work when stated, within the designated price range.
Jan 12, 2014	Checkbook Subscriber	Always comes through when needed. Very timely and polite. Know what they are doing and come prepared!
Jan 12, 2014	Andrea S.	Paid reasonable rate for emergency weekend work when our furnace died. Technician called back quickly, arrived in 30 minutes, diagnosed the problem, had the necessary part, then fixed the problem in 30 minutes. Can't imagine better service!
Jan 02, 2014	Anonymous	Knowledgeable and consistent.
Dec 30, 2013	Anonymous	On the most recent visit they were too prompt - they came a day early!
Dec 28, 2013	David R.	"Wow! It has been a long time since I was so impressed by any service provider, but my experience with Davis and Davis was absolutely top-notch from start to finish. When my old furnace failed, they were very responsive to my request for an estimate and everyone I spoke with was extremely courteous and professional. Davis and Davis' estimate was significantly less expensive than a competitor's quote for the same unit. The work was completed to a high degree of quality, on the date and time promised. The installation crew even cleaned up and patched some leaky ductwork seams and installed Radon CO2 detectors and did some other enhancement work - at no additional cost. It was obvious to me that this company and these employees take great pride in their work, and did some of this additional work just to "do it right." Finally, since there was a one-week lag between my furnace failing and the new one being installed, Davis and Davis temporarily fixed my old furnace to get me through until the new install -- again at no cost, and solely based on my verbal indication that I would. The experience I had with Davis and Davis was so positive, I a
Dec 25, 2013		We have a service contract with them, and they always let us know when something may go wrong in the future but it's okay to wait for now.
Dec 21, 2013		Friendly, professional, but equally important - trustworthy

Dec 20, 2013		Excellent service; responsive to service calls; received proposal for CAC upgrade promptly; competitive prices. Large firm and well-run. Use them for for both Central Air Conditioning and boiler servicing, too.
Dec 16, 2013		Have service contract; they check system twice per year; no issues over past year
Dec 09, 2013		Replaced air conditioner this past summer, before the 20-year-old one died. Reason: Davis & Davis (whom we have used for many years) said it would take two weeks to get a new one installed. They seem to be a bit too busy, and it took a while to get the estimate and line everything up, but they installed the new unit exactly when they promised, once we succeeded in getting the estimate. They have always been very quick for emergency service, including on one Friday evening last winter when our furnace stopped working; they diagnosed it that night and repaired it on Monday when the circuit board arrived.
Dec 02, 2013		I have been using Davis & Davis since the installed my heat pump back in 1995. Their service has consistently been superbly professional. My heat pump is now over 18 years old and still working with no problems. Davis & Davis is not cheap but they are worth what they charge.
Dec 01, 2013		Seasonal checks of air conditioning and heating systems.
Nov 30, 2013		Routine seasonal checks of A/C and furnace. They also replaced the associated pump.
Nov 29, 2013		They not only inform extremely well about the condition, but will help you take the next step while they are at your residence to save you from other repair calls to them that would be more expensive in the near future. I highly recommend.
Oct 30, 2013	Sandra D.	The install was excellent and they left my basement very clean. We are customers for life :)
Sep 30, 2013		Very reliable and easy to work with. They may not be the least expensive, but they do good work.
Sep 16, 2013		Davis and Davis was able to fix a problem another contractor couldn't find and do it in minimal time and with minimal cost.
Sep 14, 2013		Davis and Davis do a good job for a reasonable price and do not spend any time trying to sell you things you don't need; i.e., they are honest. When the technician came to check out our A/C in the spring, there was a small amount of sales talk about getting a contract with them (for the first time). I declined and the technician dropped it.
Sep 14, 2013		Very happy with Davis and Davis. Excellent Staff and Service.
Sep 14, 2013		Outstanding, they have great staff
Sep 06, 2013		During one routine inspection they may have saved our lives by discovering an ill designed vent that would leak carbon monoxide. They fixed it for free, immediately.
Sep 04, 2013		They have worked for my family for years now. Too us they are a 5 star co.

Sep 04, 2013 they have installed new A/C and heating systems in my house for over 40 years.....have never had a problem that they didn't take care of.

Sep 04, 2013 I had used them for years, this time the repair worked for only a few hours but they came back same evening and fixed the problem. Very apologetic. I still will continue using them as I have been happy with their service for years.

Sep 03, 2013 Davis and Davis has serviced our heater and air conditioner for twenty years. We have been completely happy with their friendliness and expertise.

Sep 03, 2013 Davis and Davis Installed a new central air conditioner. Their prices were better than most and they gave me a detailed estimate and recommendations of what would work best with my older furnace. I have used them to service my HVAC for years and have found them honest and reliable.

Sep 03, 2013 We have been satisfied with Davis and Davis for years. We have the annual contract which provides 2 inspections each year and presumably priority in service emergencies. They installed our current AC and heating unit several years ago and they work fine.

Sep 03, 2013 My AC system broke twice this summer. Each time they quickly identified the problem and made the repair. The second time they had to order a part; they returned at 8 am the next day to install the part (having notified me of the timing).

Aug 28, 2013 Routine maintenance only (furnace & air conditioner check) so it's hard to distinguish adequate from superior.

Aug 22, 2013 Needed reminders to get them to come out and finish the repair work. Repair work was done properly.

Aug 21, 2013 Easy to schedule periodic service and responds quickly to problems.

Aug 19, 2013 Not the cheapest but the best I have used in 30 or so years-worth the few bucks more

Aug 19, 2013 They told me that I didn't need to replace the AC unit, just replace the thermostat. Then came back for a 2nd visit to tell me not to get the temp up to 85 or cooling would never take place. Good advice.

Aug 18, 2013 It took more than one call to set up an appointment for annual maintenance, but after that, they were pleasant and easy to deal with. Service tech was informed and we were comfortable working with him. They mentioned an annual contract, but did not press it, and we didn't feel that we were being upsold on anything.

Aug 18, 2013 It took some convincing and documentation to prove to them that the necessary work was covered under their 5-year warranty which they added to the mfg 5 year warranty when they installed the compressor about 9 years ago.

Aug 18, 2013 We have a contract for air conditioning and heating--2 visits/year to check equipment.

Aug 15, 2013	These guys installed a system incorrectly, did not fix it for two years and the system blew up after the first year warranty. Incompetence is the only word.
Aug 14, 2013	We have used them for years and highly recommend Davis & Davis.
Aug 13, 2013	Davis & Davis installed my A/C system more than fifteen years ago and have provided outstanding service since then. I am very satisfied with the service received.
Aug 13, 2013	damaged air conditioner during a spring checkup - wouldn't take responsibility
Aug 12, 2013	on the recommendation of your notebook I chose them to install a new heatpump for our third floor. They did not tell me a filter needed to be changed monthly or adequately explain the new thermostat. They said they did not service it until the two year warranty will expire. I also signed a contract to service my two other air conditioners and my heat system. I have found them to be difficult to get my service and very nasty to deal with. I am going to find another company next year. They are nasty and arrogant.
Aug 12, 2013	Have been using Davis & Davis since 1985, and service still as good now as it was so many years ago.
Aug 12, 2013	I use Davis and Davis at my rental property and they do great work and are reasonable but I don't get told how much it will cost beforehand.
Aug 12, 2013	This company is a pleasure to work with and their technicians are the best we have had.
Aug 10, 2013	Work well with women. As a contract holder got great response on a summer ac emergency.
Aug 10, 2013	Reliable, consistent, reasonable cost
Aug 10, 2013	Have used them for ten years and they are excellent.
Jul 30, 2013	Recently I had an emergency situation with my a/c that arose around 12:30 a.m.. I contacted Davis & Davis and a technician returned my call within five minutes. He advised me that my actions had warded off any further problems and that someone would contact me between 6 a.m. and 7:30 a.m. I received a call promptly at 6:00 a.m. and a technician (Thomas) was at my house by 9:00 a.m. While he was initially stumped as to the problem, one which he ultimately understood but had not seen in his 23 years of working in this field, Thomas resolved the problem and my a/c was up and running that morning.
Jul 29, 2013	Always dependable, gets there when you need them most: blizzards, heat waves, storm damage. Service contract is a great deal -- protects against unexpected mechanical failure.
Jul 25, 2013	Excellent with both installation and service

Jul 07, 2013	sanchia m.	<p>Davis & Davis have been looking after me since I bought my house in 1987.</p> <p>They are efficient, fair, and display that most prized of attributes - integrity.</p> <p>There will never be another company for me. They are the BEST!</p>
Jul 01, 2013	Fred A.	<p>Very professional firm. They are punctual and price services fairly. Better than average Air Conditioning and Heating company.</p>
Jun 22, 2013	Samantha R.	<p>My gas boiler is about 75 yrs old, probably original to the house. I never had any problems with it until a contractor to Washington Gas came to install a new gas meter. This seemed strange because the gas meter was not old or malfunctioning as far as I could tell. He did not like the boiler so he 'red-tagged' it and turned the gas off. I believe he was just trying to get me to buy a new boiler. I will tell Wash Gas to stop allowing these contractors to go to people's houses and mess around with their heating systems. But that's another story. Next I asked a technician from Company X to clean and restart the boiler. He fiddled with it for a while, banged and cussed at it, then refused to restart it, saying it was beyond repair and needed to be replaced. Before getting estimates from several heating companies I figured I'd get another opinion on my boiler. So I got Davis & Davis to send a technician. He came and inspected it, got it going again. He said it is OK now, just needs a good cleaning. He said it's obsolete, not as efficient as the newer boilers, and</p>
Jun 18, 2013	Stacy M.	<p>I have had a service contract with Davis and Davis for 11 years to maintain my heating and A/C systems. They have kept my ancient furnace and A/C working far beyond their expected life spans, so I am pleased to recommend them for a service contract. They are always on time, giving a two hour window on the day of the inspection, and a half day window in the advance appointment. All of the technicians have been very professional and have answered all of my questions.</p>

Jun 16, 2013	Jan S.	<p>I have been looking for a long term HVAC company ever since my 25 year provider retired. Chris from Davis and Davis sealed the deal in one service call. My blower fan quit on a cold morning (funny how it's always a cold morning when that happens). A ripoff artist from a competitor who shall remain nameless, but whose name is on the hundred dollar bill, asked for \$1200 for a new fan. Chris correctly diagnosed the problem as a shorted wire, which shorted the control board. He got the fan running on the spot, all for \$95 and is ordering me a new control board. In the process, he figured out that the \$20 stopcock on the gas line feeding the furnace was leaking gas -- a potentially lifesaving pickup. There's no question in my mind why Davis and Davis has an outstanding rating on Angie's list. It's entirely deserved. I was so impressed, I committed to an annual service contract on the spot, as long as the company promises to send Chris on each visit. I'm signing this review (which I never do) so that people will have no doubt as to its authenticity. Jonathan C. Javitt, M.D.</p>
Jun 13, 2013	Vivian D.	<p>"Fritz" came to my house, was prompt, pleasant and professional. He answered questions, and explained my options. I did not end of using this company as I decided on a heat pump brand that they do not carry. Also, they do not accept credit cards. However, I would not hesitate to recommend them or use them in the future. I checked both Angie's List and before getting their name. Also, people on my neighborhood listserve had recommended this company. Fritz was the only one of three companies that I used for estimates, that realized that he could enter through another part of the basement to install the equipment. He was thorough in measuring and giving me options.</p>
Jun 12, 2013	Rosie W.	<p>I called Davis and Davis to schedule a visit to and they were able to come out the next evening. One of the few HVAC companies with evening hours. The technician was prompt and professional and explained the problem with the furnace and the neede repair in a way that I could understand. He needed to order a part and gave an honest estimate as to the time it would take for the part to arrive. He also gave me an estimate on the cost that turned out to be correct almost to the penny. The furnace part arrived within 24 hours and I was able to schedule a visit for that evening. I knew this was going to be an expensive repair but because of Davis and Davis' service and professionalism, this was an overall positive experience.</p>

Jun 10, 2013	Genevieve C.	They do a great job. They always catch little things that are helpful. They are great. They are definitely top notch. I recommend getting an annual check-up. I just started doing it 2 or 3 years ago. Since I started I haven't really had any problems. We go over everything and they give suggestions. They are always looking to give me helpful tips to make sure the system is running. Their price is pretty reasonable. Their quality is exceptional. They are always on time. They say they are going to be there that day between a certain time; they give me a 2-hour window and they are always there.
May 28, 2013	James Bradley	We had a dying furnace this winter, and our normal hvac provider couldn't come out for a couple of days; so we looked for another company in our area. Davis and Davis sent someone out that same day, and the technician discussed our options on repairs or a new furnace. We opted for the new unit, and had it in and running the next day! My family and I definitely recommend them!
May 23, 2013	Checkbook Subscriber	The former owners of our home used Davis & Davis, consistently for yearly checkups. We have continued the same practice and have been completely satisfied and impressed with the company - and staff. We request the same technician, Thomas, for yearly services on heat and air - he's smart, honest, and always pleasant. Highly recommend!!
May 02, 2013	Checkbook Subscriber	Prompt and excellent service. After a review of our malfunctioning boiler, the technician, Thomas, identified the need for a replacement part. He contacted the warehouse for a replacement and they said it would likely take a few days to deliver. Instead of having us wait for the part to be delivered to the company, Thomas traveled to pick up the part and replaced it so we could have heat the next day. Because of the level of service and attention to our needs, we signed a service agreement with the company and have been very happy!
Apr 15, 2013	Uday W.	Have been using D&D for one time, annual contract. Really paid off last week. They had moved our a/c units last summer. Last week, when it got hot, we switched on the a/c and it did not cool. Tech came out the same afternoon, told me that the freon had leaked, that he needed to change some pipes. Came back on Monday and finished the job. No charge! Great service,pleasant techs, quick response.
Apr 09, 2013	Checkbook Subscriber	This not my first time with Davis and Davis. Each time they came they found my problem and corrected it the first time. I will continue to call on them in the future. As for there cost for service and repairs I feel that they have been very fair with the pricing.
Mar 21, 2013	Ruchika	I had an incredible experience with Davis And Davis. Wouldn't go any where else. You guys are good!

Mar 21, 2013	Ruchika	I had an incredible experience with Davis And Davis. Wouldn't go any where else. You guys are good!
Mar 12, 2013	sarah	Great experience
Feb 21, 2013	Brian G.	These guys are THE Best! They are a family business, and it really shows, I definitely recommend using them as your HVAC providers. On a cold Saturday night, my 25 year old furnace died out on me. I called Davis and Davis, and they had a technician out to me that night! Because of his knowledge, he told us the cost of repair would be \$295, but in his professional and honest opinion, our old and worn system was seeing the last of its days. 1 quick estimate later, and my family now has a better warming and cost efficient heater.
Feb 18, 2013	Checkbook Subscriber	I've always had GREAT success with Davis and Davis until the last Spring checkup. A/C worked PERFECTLY until technician came for Spring Checkup. Right after he left, A/C failed. Person returned and failed again. He told me that the exact time he came (the first time), a lightening strike must have occurred and only affected my a/c system and no other system in my house or any other house in neighborhood. He told me I should collect money for repairs to A/C from my insurance company.I complained to Davis & Davis manager and was told that he couldn't determine what to believe but they were so big that they would definately cover the cost if it was their fault. On the other side of the coin, it appears that they are so big that they couldn't care less if I went somewhere else.Technican returned and replaced motor. A/C failed again. Technician installed the wrong motor. Manager promised to come to my house. Another technician returned and replaced with an OEM a/c motor and fixed all the screwups from first technician. (first tech took old motor so maybe it never had to be replaced). A/c then worked fine.Man:
Feb 18, 2013	Checkbook Subscriber	Replaced clogged/blocked furnace pilot line and took only a little over 1/2 hour to find source of problem and complete work. Provided estimate on likely remaining furnace life and regular maintenance. Very professional service.
Jan 22, 2013	Checkbook Subscriber	Really like dealing with them, no problems what so ever.
Jan 11, 2013	Sean A.	I had an incredible experience with Davis And Davis. I was sure that my heater had blown out and I was going to have to buy a new one. I was not prepared to make the purchase but knew it was inevitable. Turns out, it was a simple fix for the technician and he got me up and running in about 15 minutes. I am a fan and will be using them going forward. I highly recommend them. Great workers and super nice folks. SA
Jan 10, 2013	Checkbook Subscriber	Repaired furnace that stopped working the night before. Promptly arrived the next morning within specified time frame. Professional service and very reasonably priced

Dec 28, 2012	Checkbook Subscriber	My heat pump stopped cooling one day in the beginning of August. Davis and Davis sent someone the same day a few hours after I called. The technician diagnosed the problem quickly and was able to fix it in less than half an hour. The heat pump has been working fine since then. I was completely satisfied with this service.
Dec 16, 2012	Checkbook Subscriber	fter receiving an outrageous estimate and work description from Michael and Sons, Davis simply came in and did excellent work at what 4 estimates showed us was a fair price. Professional and they knew their work. Michael and Sons did NOT.
Dec 15, 2012	Checkbook Subscriber	Davis & Davis have installed and serviced our furnaces and air conditioners for years. They are top notch in every respect.
Dec 12, 2012	Checkbook Subscriber	Dwight takes the time to educate you about air/heating maintenance. Very thorough.
Dec 09, 2012	Checkbook Subscriber	they need to be more helpful in preserving functioning old machines than providing strong recommendations for the new expensive technology.
Dec 08, 2012	Checkbook Subscriber	Outstanding company
Dec 02, 2012	Checkbook Subscriber	Whether they come out for annual maintenance or the occasional need for repair, the technicians are knowledgeable and apply themselves. Rates are fair.
Dec 01, 2012	Checkbook Subscriber	Davis & Davis installed a new furnace/AC system in our home. The system Fritz proposed was the most sensible for our situation, and the cost was the lowest of the estimates we got. The installation crew was upbeat and professional. Our whole experience with the company was excellent.
Dec 01, 2012	Checkbook Subscriber	Prompt in responding to request for a quote. Responsive to multiple pre-purchase questions and options. They were great.
Nov 29, 2012	Checkbook Subscriber	All aspects of service from Davis&Davis were outstanding. Price was the lowest out of 4 proposals and advice on options was the best. The quality of work was outstanding and work completed on schedule.
Nov 26, 2012	Checkbook Subscriber	I have had Davis & Davis twice come to my house to service a 2 year Carrier Infinity HVAC system. Both times I have requested from their office to contract for twice yearly servicing but after 2 years still not received the material to start a contract. Additionally the last visit I was advised the furnace connection to the chimney is still not up to code and could a. leak CO into the house and b. deteriorate my chimney, I have waited over 2 weeks now for them to get back to me on what, how much & when they can make the repairs.
Nov 26, 2012	Checkbook Subscriber	Best heating & cooling firm we have tried, and we have tried many! Great at keeping our elderly furnace and AC unit going!

Nov 20, 2012	Checkbook Subscriber	Replaced 26 year old AC and gas furnace. Spent time with me explaining features, costs and energy savings for various packages. Identified \$1000 in rebates. Good installation crew; did a nice job and didn't mess anything up.
Nov 20, 2012	Checkbook Subscriber	Very professional. Gave great advice and spent extra time to educate me on what I can do to prevent future problems.
Oct 28, 2012	Checkbook Subscriber	Able to schedule appointment quickly.
Oct 14, 2012	Checkbook Subscriber	not cheap, but good quality & reliable
Oct 03, 2012	Checkbook Subscriber	Outstanding. Reliable, reasonable, pleasant - and knowledgeable.
Sep 21, 2012	Checkbook Subscriber	better than others weve used
Sep 20, 2012	Checkbook Subscriber	This is the Cadillac of a/c companies. They are honest, telling a customer to save \$ when something is not necessary to replace, such as a furnace when buying a new a/c system. Installers' work was done as if they were working on a piece of art. Highly recommended.
Sep 18, 2012	Checkbook Subscriber	This is the best HVAC I have had and I've been thru several over 20 years.
Sep 18, 2012	Checkbook Subscriber	Installd new furnace and humidifier, they were competative inprice and exceptional in overall service
Sep 17, 2012	Checkbook Subscriber	I have a yearly contract with Davis & Davis
Sep 15, 2012	Checkbook Subscriber	Very pleased when we used them to get new AC and furnace - good price quote, and service was great - on time, cleaned up work area, explained everything.
Aug 29, 2012	Checkbook Subscriber	very satisfied
Aug 26, 2012	Checkbook Subscriber	This service was part of a preventative maintenance contract.
Aug 25, 2012	Checkbook Subscriber	Prompt competant service! Highly recommended.
Aug 24, 2012	Checkbook Subscriber	they are honest & very detail oriented & do excellent job
Aug 23, 2012	Checkbook Subscriber	called to say that my a/c was out and they said they would call me back on Friday (this was Monday). Never heard from them again.
Aug 23, 2012	Checkbook Subscriber	We've used them for almost 40 years - in 2 different homes - for a/c checkups and replacement.
Aug 22, 2012	Checkbook Subscriber	excellent service, wouldn't use any other company, and have had them install home A/C unit and heaters over the years, which they take care of....always on time.
Aug 19, 2012	Checkbook Subscriber	Rates are very reasonable and staff is very helpful with suggestions to save cost. One note, they will not service types of air conditioners they do not install anywhere.
Aug 18, 2012	Checkbook Subscriber	Needed prompt installation of new equipment to take advantage of Montgomery county subsidy; they delivered.
Aug 16, 2012	Checkbook Subscriber	Outstanding service at all times.
Aug 16, 2012	Nina P.	Davis & Davis installed my new heat pump (heating & a/c) and had two small issues, which they cleared up in a timely manner. Both times, the technician explained to me what happened and tips on how to prevent the glitches. I would highly recommend them.

Aug 15, 2012	Checkbook Subscriber	I have had mixed results with this company over many years, some technicians better than others
Jun 19, 2012	Checkbook Subscriber	We have used Davis & Davis for AC and Heat for seven years. They are excellent; punctual and very professional.
Jun 13, 2012	Lynn D.	I've always been happy with the service from Davis & Davis. Today, I called at 2:30 pm for a broken hot water heater. They came out today and fixed the problem. I have always been very pleased with their service and with the technicians they send.
May 21, 2012	Checkbook Subscriber	Began using in March 2012. So far we are finding Davis & Davis an outstanding firm.
May 16, 2012	Checkbook Subscriber	These guys are excellent. The salesman knew what he is doing, the price was very good and the installation was also excellent. Great price and great work - what more do you need?
Mar 09, 2012	Checkbook Subscriber	We've been using Davis and DAVIS for years. They are responsive and do quality work at competitive prices.
Feb 26, 2012	Checkbook Subscriber	An estimator named Kevin Smith came to my house to give me estimates on installing 1) a high efficiency boiler, and 2) a central air conditioning system. A couple weeks thereafter I called Davis & Davis's office to ask for the estimates, and the office then sent an estimate to me for a conventional boiler, rather than a high efficiency one. Furthermore, Mary Anne, who answered the office phone, informed me that the company doesn't install central air conditioning systems in homes that don't already have it. Apparantly the estimator, Kevin Smith, was not informed of this policy, and wasted both our time going through my house for purposes of providing an estimate on installing central air conditioning.
Feb 15, 2012	Checkbook Subscriber	The man who serviced my furnace was very patronizing. He gave the furnace a routine service without regard for my concerns. The furnace has a history of issues which another company could not fix or even identify. He insisted the furnace was fine and intimated the previous heating company simply didn't know what they were doing. As it turns out, my concerns were valid and the problem I had with the furnace still exists today. I would not recommend this company.
Jan 19, 2012	Checkbook Subscriber	Administrative dealings with D&D, over the last 5 years, can only be described as a nightmare. We have used them for a routine service contract only needed a repair once, so can't say much about the technical work. But we are giving up on them since merely scheduling the service visits is a complete misery. Today is the last day they're going to wake us up with an early morning call to our home phone despite a thousand entreaties to never do so.
Jan 16, 2012	Checkbook Subscriber	Please see my comments on Davis & Davis for AC service.

Jan 15, 2012	Sharon W.	<p>We've used Davis and Davis for years with no problems. In fact when a county inspector made a mandatory inspection after installation of our furnace 5 years or so ago he even said he's never had a problem with their work.
 Today, on one of the coldest days of the winter so far, our furnace stopped blowing out hot air. It's a Sunday and we're like "oh, great". But my husband called Davis and Davis and within 15 minutes a technician called back. He ran us through a brief checklist and had us "reset" the furnace. Within minutes hot air was blowing through the vents and all was right with the world again, well at least at our house. So with no fuss or muss, no expensive service call our furnace was fixed. The technician must have had computer records available because he had a history of our service calls for water heater, AC and furnace and even commented he's been to our house before. He did suggest we schedule routine maintenance on the furnace, which certainly seems like a good and reasonable idea. So back it is to playoff football games and a glass of wine.</p>
Jan 11, 2012	Checkbook Subscriber	<p>Very reliable, friendly, timely - top notch for us over more than 25 years</p>
Jan 01, 2012	Checkbook Subscriber	<p>Great service. Returned from vacation on New Year's Eve and our gas-fired furnace was not working. Called our regular service company on New Year's Day and their "on-call" furnace tech is not working today or tomorrow. Called Davis and their answering service had a tech call me within half an hour. He was in the area (NW DC) on another call, and showed up at our house an hour later. Chris was courteous and knowledgeable, and he had the parts needed. He fixed the furnace in about an hour and the price was very reasonable for a weekday, let alone a Sunday holiday. First experience, but definitely a good one. Highly recommend.</p>
Dec 29, 2011	Checkbook Subscriber	<p>December 29, 2011. They do not service the entire NE section of Washington DC as told to me by the receptionist. They should only be listed for servicing the areas of DC they do service.</p>
Dec 18, 2011	Checkbook Subscriber	<p>the service guy that came to my house to do a fall check started yelling at me because he was unable to find a parking space! Also, it has been over 5 years later -- after I changed to another company -- that I learned that Davis & Davis NEVER turned on my emergency heating unit when they installed my heat pum. For the past 5+ years after they installed my unit, their response to my complaints that the temperature in my house would NEVER go above 65 in the winter, regardless of what I set the thermostat at, the service guy just said that it was the limitation of heat pumps!! Davis & Davis has to be the worst heating/AC contractor in the DC area!</p>

Dec 17, 2011	T J.	We've used these guys for about 9 years to maintain and repair our heat and AC. This Saturday morning, we woke up to no heat (40 degrees out and we have a toddler). They had someone over in 20 minutes and it was fixed within another 30 - the price was fair, and since I think we were within their usual service hours, there were no extra charges for emergency service. I've found them to be prompt, courteous, and all of their technicians to be knowledgeable. None have tried to sell us services or parts we didn't need, and their advice and recommendations have been dead-on. I've found their prices to be totally fair. Today's great service, though, is what prompted me to write.
Dec 15, 2011	Checkbook Subscriber	They installed a new heat pump and one year and a half later it was still not working properly. They came more than five times and could not figure out the system was overloaded (incorrect load of refrigerant). This killed the compressor which had to be replaced.
Dec 04, 2011	Checkbook Subscriber	Thoroughly professional in all respects.
Dec 02, 2011	Checkbook Subscriber	Use them for A/C and gas boiler reviews and problems. Knowledgeable and competent
Nov 06, 2011	Checkbook Subscriber	Called these guys to fix an air conditioner on the hottest day of the year - was not a regular customer but they said they'd fit me in within 2 days. Someone canceled and they called me the same day and got me in at the last minute. Great job.
Nov 06, 2011	Checkbook Subscriber	I've used them for years. At times when they could have easily had me replace my air conditioner a low cost repair (that worked) was recommended. Just had a new furnace put in and they we great to work with.
Nov 02, 2011	Checkbook Subscriber	We have had annual service contracts with them for years and have been pleased.
Sep 19, 2011	Checkbook Subscriber	Thought they were great at helping to wade through multiple proposals and figure out what was the best solution for our home.
Sep 16, 2011	Checkbook Subscriber	Quoted price for call over phone then serviceman charged double. Told me parts are no longer available and I needed to replace A/C. Called in another repairman and he fixed A/C with the necessary parts
Sep 15, 2011	Checkbook Subscriber	I have used Davis & Davis for a number of years, and they have always done an excellent job! I recommend them to friends and family all of the time.
Sep 14, 2011	Checkbook Subscriber	Good outfit
Sep 13, 2011	Checkbook Subscriber	The BEST!!

Sep 13, 2011	Checkbook Subscriber	i was told by two other companies that i had an evaporator coil which needed to be replaced. i decided to price shop. i caled davis since i had used them in the past,and found them to be satisfactory. when i spoke with mr davis, he made a big deal of needing to send someone out (for \$95) to evaluate the situation. the money would be applied to the balance of the overall cost of the replacement. the tech came out, and i made the mistake of telling him what the other two techs told me. he immediately looked at the coils, wrote up his "analysis" and left. he didn't bother to check anything else. i ended up using one of the other two places i consulted. i wrote to mr davis explaining my disappointmetnt, and never a response or refund. i will not use them again.
Sep 09, 2011	Checkbook Subscriber	Best service I have every experienced.
Sep 07, 2011	Checkbook Subscriber	They took five trips and several tries to just fix a connection that needed to be beefed up. To our view they could have done that first. At least there was no pressure for sales. Staff was nice but five trips?
Sep 04, 2011	Checkbook Subscriber	I have used Davis & Davis for 15 years for several different A/C and heating installations and repairs. They were always quick to respond, did quality work, and charged reasonable prices.
Sep 01, 2011	Checkbook Subscriber	Firm developed an attitude so after 20 years I moved to Gaithersburg H&A/C
Aug 20, 2011	Checkbook Subscriber	A first rate operation that we have been using for 34 years.
Aug 17, 2011	Checkbook Subscriber	Service people and estimator was very pleasant and professional, but the supposedly high efficiency unit they installed simply does not cool the upper levels of the house adequately or as well as the old unit they replaced -- despite repeat vists to adjust settings.
Aug 13, 2011	Checkbook Subscriber	Friendly, professional,and competent. Very satisfied with this firm
Aug 12, 2011	Checkbook Subscriber	Davis & Davis installed both a new AC and Forced hot air furnace for our home this year and gave me advice on a small adjunct boiler for a baseboard heating system.
Aug 11, 2011	Checkbook Subscriber	They arrived early, finished quickly, met the estimated cost and cleaned up reasonably well.
Aug 08, 2011	Checkbook Subscriber	Really fabulous outfit; but errors in billing meant that my service contract was not honored. Ultimately rectified, but a hassle in the resolution.
Aug 06, 2011	Checkbook Subscriber	They did a complete central a/c and gas furnace replacement in my house. Their service was superior in every way - couldn't ask for better.
Aug 05, 2011	Checkbook Subscriber	We hava a service contract with them. This was for annual tune up.

Aug 03, 2011	Checkbook Subscriber	Our experience with Davis & Davis was a pleasure from beginning to end. The estimator did a thorough job of analyzing our needs and recommended a smaller unit than we had previously. The installation was faster than expected and left the utility room as neat as they found it. No attempt to sell us any added warranties. The system has been excellent during this unusually hot summer.
Aug 02, 2011	Checkbook Subscriber	Reliable and responsive
Aug 01, 2011	Checkbook Subscriber	Will absolutely stand behind their work. Did service on my condenser which they had installed. One week later it died. They replaced it at no charge
Jul 28, 2011	Checkbook Subscriber	Prompt, polite, and fixed the problem on the first try.
Jul 27, 2011	Checkbook Subscriber	Their service personnel do not benefit financially from recommending additional services or repairs, so they keep costs to a minimum and recommend only that that is needed. Great people to work with
Jun 29, 2011	Checkbook Subscriber	We have been using Davis & Davis for seven years; and we started using them as our prior homeowners had been using them for 15+ years. Outstanding service - and options are always based on a 'let's try and see' rather than pushing costly (and potentially unnecessary)fixes, etc.
Jun 21, 2011	Giselle H.	Trustworthy! When researching service utility companies, I look for two things: 1) years of experience in the community and 2) word of mouth. That's why Davis & Davis is the best choice. Well recommended by community members and courteous customer service. My condo told me I would possibly have to replace my AC, but Davis & Davis figured maintenance was all that was needed, saving me a lot of money.
Jun 09, 2011	Checkbook Subscriber	This company does not service the District of Columbia NE as reported in your ratings for this firm in the April 2011 article.
May 25, 2011	Checkbook Subscriber	called this company and asked for service on an attic airconditioning/heat pump told them it might have a freon leak. they sent a guy out who was too big to get into the attic area or to fit into the enclosure with the outside unit (other service persons have had no problem with either) and informed me I had a leak and he didn't have time to fix it during his visit, he only had a short amount of time scheduled. Total waste of time and energy. don't deserve the superior service rating Who needs someone to come and tell you t

May 24, 2011	Gary A.	<p>Today was the 2nd time we had excellent service from Davis & Davis for an annual shot of Freon to keep our aging Air Conditioner alive. I called for an appointment one day, was scheduled for the next day. The technician arrived within 5 minutes of the appointed time, finished the work quickly, checked the system and advised me on what to expect and did NOT try to upsell me any unneeded service. The price was a bit lower than I expected (i.e. less than last year). Altogether a terrific experience on a terribly hot/humid day... and the A/C kicked in quickly to cool down the house. Thanks.</p>
May 19, 2011	john b.	<p>Last week was the first time I used David and Davis and I must say I'm impressed. I had an issue with my AC and called my regular AC company with whom I have a contract. The price for the repair they gave me seemed pretty high, so I decided to shop around. Davis and Davis came highly recommend by several of my neighbors so I gave them a call, they had a technician out to me that afternoon. In less than an hour and less than \$225 my AC was fixed. Great customer service, excellent technician and awesome price. Can't beat that. I highly recommend them.</p>
May 19, 2011	Checkbook Subscriber	<p>Could not have been a better experience. Excellent work and staff. Sales person very honest and candid.</p>
Apr 22, 2011	Jean M.	<p>Have used Davis & Davis for years and have always received courteous, prompt service. Not sure about the comments about calls not returned as that has never been a problem for us.</p>
Mar 31, 2011	Kevin S.	<p>I have used Davis And Davis in the past and was again impressed with their service over a cold weekend in January. The house temp had dropped to 58 degrees and i didnt think i would have any luck getting a technician on Sunday. Eric arrived at 9am and by 10am my system was up and running. The charge was more than fair and i wish to thank them for a job well done.
 K. J. S.</p>
Mar 01, 2011	Rich W.	<p>We have a 13 yr old HVAC system, so we received too-numerous-to-count neighborhood recommendations to use Davis & Davis. I request the same service technician (Ivan) each time. He was so good finding an inexpensive fix the first time we had a system breakdown, that I bought a service contract for a pre-Heating & pre-Air conditioning season check. Very professional. Uniformly responsive. Well trained techs. Ivan recommended I have 3 estimates for the NEXT HVAC system we buy ahead of time as my system ages & when it eventually breaks down for good. I appreciate the advice. They're GOOD!</p>

Feb 20, 2011	Kevin S.	I have used Davis & Davis service for years. They are highly rated on Angies List, BBB And Washington Consumer Checkbook. I saw they were just rated best Air Conditioning & Heating Company in 2010 by Bethesda Magazine. They installed my system 20 years ago and i am about to replace it again. These guys are the best.
Jan 19, 2011	Checkbook Subscriber	I called this firm due to their good ratings in the consumer checkbook and they don't service Georgetown. They offered a referral but the referral company did not have superior ratings in the checkbook. I think some of the firms with outstanding consumer checkbook ratings are overrated, or it affects performance.
Jan 14, 2011	Checkbook Subscriber	Used for Winter Checkup of heating system
Jan 13, 2011	Checkbook Subscriber	We have been using Davis & Davis for 4 years and they have always been prompt, helpful, and honest.
Jan 03, 2011	Checkbook Subscriber	Davis&Davis recently replaced my entire HVAC system plus water heater, added humidifier and high efficiency air filter. Of the 5 companies who bid the job David&Davis was by far the most thorough, exploring many alternatives and identifying important issues that the others did not address or that the others discounted when asked about them. Many of those issues turned out to be very important in this more difficult configuration and installation. Fritz was also the most responsive of the representatives of the companies who submitted proposals and he also identified a \$500 utility rebate that none of the others did (on the same or equivalent qualifying equipment). The installation crew (Rich and Mike) were exceptional in their work and attention to detail, as well as being very congenial in all interactions with us. The results of their work are exquisite and look as though they should be in a showroom and not in a basement installation. The Davis&Davis proposal was the second lowest, within about 3% of the lowest, and over 20% lower than the highest (all systems functionally equivalent). When it was discovered just t
Dec 15, 2010	Checkbook Subscriber	Did not show up for an appointment after waiting all day. They called after appointment time to say they would call back in 2 days to reschedule, and they never did. Tons of other firms out there that I can call now.
Dec 15, 2010	Checkbook Subscriber	Would use them again. Just not a warm fuzzy experience, shall we say.
Dec 15, 2010	Checkbook Subscriber	Stable, historically excellent technicians. A neighborhood treasure in Kensington!
Dec 12, 2010	Checkbook Subscriber	no longer works on oil furnaces....even those they installed.
Nov 24, 2010	Checkbook Subscriber	Excellent service while diagnosing a minor maintenance problem with our furnace.
Nov 16, 2010	Checkbook Subscriber	We have a service contract with Davis and Davis, and they are quick to respond to problems, honest and competent in making necessary repairs and providing advice about alternatives when appropriate, and we have been very satisfied with their service.

Nov 16, 2010	Checkbook Subscriber	I have a contract with D&D to service furnace and a/c -- involves a twice yearly checkup -- they installed these units a number of years ago -- have had only a few problem, but they took care of them and was only charged for parts out of manufacturer's warranty (not for labor)
Oct 12, 2010	Checkbook Subscriber	Getting a quote for a new HVAC has been an extremely frustrating process. I was twice told that a quote had been mailed to my home only to be finally told that in fact it had never been put together. I was assured that it would be delivered to me in person later that very afternoon but they were a no-show. In fact it has been a month now since Kevin came to my home and still no quote. This has gone beyond poor service and is now just rude.
Sep 14, 2010	Checkbook Subscriber	Top of the line service. Highly professional in every way.
Sep 08, 2010	Checkbook Subscriber	I have used Davis & Davis many times for repair, and have generally been quite happy. However, when I had them come for a yearly service, I was disappointed that the technician came well after the scheduled time and informed me only after arriving that the charge would be twice what I had expected since we have 2 units.
Sep 07, 2010	Checkbook Subscriber	I replaced my heating/air conditioning system. They worked with me to get the right system (I had a narrow area and plan on adding a room). Arrived on time, and took only a day, although they scheduled a day and a half.
Sep 07, 2010	Checkbook Subscriber	their prices were higher than I expected. I plan to use a local neighbor next time.
Sep 07, 2010	Checkbook Subscriber	On time, on price. Good job.
Sep 03, 2010	Checkbook Subscriber	I obtained 5 different estimates and D&Ds Fritz the estimator provided many options to get the best efficiency and best cost. Estimates are provided quickly by email & PDFs, followed up by comprehensive booklet in the mail. Installation by Kevin & Kevin began on-time, was done professionally and very neatly, and completed early with no clean-up needed by me afterward. They replaced my furnace and AC that was installed by Davis & Davis 25 years earlier.
Aug 31, 2010	Checkbook Subscriber	Called for AC service/check-up. Friendly and professional tech arrived on time, offered helpful advice. Well worth my time and money.
Aug 19, 2010	Checkbook Subscriber	We have used Davis & Davis for a number of years to service and maintain our system. They come every spring and service the AC and again every fall to service the heating. They are prompt, efficient and pleasant.
Aug 14, 2010	Checkbook Subscriber	Total AC system (condensing unit and evcaporator)replacement of a 20 year old system. Finished on budget and ahead of schedule, just before our endless summer 2010 heat wave. Superb job.
Aug 11, 2010	Checkbook Subscriber	May not be the most inexpensive but I feel they give me good, reliable, professional service.
Aug 11, 2010	Checkbook Subscriber	Overall outstanding

Aug 11, 2010	Checkbook Subscriber	A first rate, first class company. Used them for over twenty five years and am very pleased with their professional work.
Aug 09, 2010	Checkbook Subscriber	Wonderful to work with.
Aug 07, 2010	Checkbook Subscriber	I have delt with many ac and heating companies in my past 36 years and Davis and Davis Air Conditioning and Heating made me feel that I have found someone at last that I can depend on for dependable work.
Aug 05, 2010	Checkbook Subscriber	I have used David & Davis for over 10 years on my central air conditioning. The service representative who generally handles the work is prompt,knowledgeable and efficient.
Aug 03, 2010	Checkbook Subscriber	We had used this service before, for something minor, and when we needed a new a/c system, double checked the ratings on consumer checkbook, and found them to be one of the highest rated and felt more confident to call them for this. I agree with the ratings and add our high rating to the list.
Jul 29, 2010	Checkbook Subscriber	During the recent power blackout in Montgomery County, we lost power and A/C.I called Davis & Davis. We had no service contract or warranty so we would have to wait in line for service. However, when our power was restored, I called the firm. Our power status gave us the advantage and the service scheduler asked if afternoon would be OK for a service call. Ten minutes later, he called and asked if service within the hour would be OK. Fifteen minutes later the technician arrived and completed the repairs within half an hour. I call the whole experience an example of first-rate service.
Jul 28, 2010	Checkbook Subscriber	Actually did the job -- heating and air conditioning in one day. Cleaned up the site, hauled away the old equipment. One minor problem. The wiring shorted out the thermostat's control of the fan motor. A technician came out and repaired the problem. The system works great.
Jul 19, 2010	Checkbook Subscriber	good for a.c., but not able to service boiler
Jul 13, 2010	Checkbook Subscriber	Pleasant, prompt, professional & re- confirmed appointment. Not cheap but has excellent reputation here in their neighborhood (Kensington)
Jul 12, 2010	Checkbook Subscriber	We had Davis and Davis for three years. They are wonderful. I do not have any complain about them.
Jun 28, 2010	Checkbook Subscriber	They were on time and helpful with tips and other service options with no pressure at all. The service technician went out of his way to be friendly and helpful.

Apr 06, 2010	Checkbook Subscriber	Davis & Davis handled our biannual inspections with pleasant efficiency, but the greatest value of the service contract to us was the heroic on-call service guy who showed up at 11:30 p.m. on New Year's Eve to answer our frantic call for help when the furnace died after days of below-freezing cold. He got it to come back on until a replacement part could be ordered. That man has my everlasting gratitude. Unfortunately for them, we were forced to obtain a new HVAC system last year from another company because D&D's estimator didn't get back to us for 8 days, which was after the company we chose had completed installation of a new system.
Jan 09, 2010	Checkbook Subscriber	quickly diagnosed acrid smell as due to failing blower motor. gave us tips on how to deal with it till replacement. price was a bit stiff (\$95 for half hour)
Sep 20, 2009	Checkbook Subscriber	The technician came for an a/c check up at the start of the summer and was helpful. He took the time to give me some tips on keeping things clean and working and said that my old unit could probably last another 5 years, even though other companies said we should just replace it now.
Sep 15, 2009	Checkbook Subscriber	I've had excellent service from them for many years, both maintaing my old system. Installing a new system and now maintaining the new system.
Sep 08, 2009	Checkbook Subscriber	An excellent company. Ivan is a great mechanic, he notices the important details.
Aug 26, 2009	Checkbook Subscriber	Service under service contract is superior. Repair of A/C unit was not done properly. Improper work is being corrected under warranty
Aug 24, 2009	Checkbook Subscriber	It took three visits by three different representatives of the company to fix my furnace and many hundreds of dollars before the repair was made
Aug 24, 2009	Checkbook Subscriber	My ancient compressor was on its last legs late last spring -- saving it required 2 techicians and 3 separate visits. At any point they could have insisted it was unfixable and that I'd have to replace it, but they got the job done anyway. In the end they charged me for about half the actual hours spent on the job. THEY informed ME that the replacement part needed for my air handler was under warranty -- they could have easily charged me for it and I'd have been none the wiser. Although their hourly rates are probably not the cheapest, their technicians have the expertise to merit the rates and they do what they can to keep their time charges to a minimum. They are honest as well as professional, and I recommend them highly.
Aug 14, 2009	Checkbook Subscriber	We have had a service contract with Davis and Davis for years. When the AC broke in the middle of the 90 degree days, they came out the same day and replaced the fan condenser for no charge. Great service.

Aug 11, 2009	Checkbook Subscriber	House Air Conditioner was not working on a very hot July day. Service person came promptly and fixed the old air conditioning compressor. Recommended that we replace the unit before it broke again. Indicated it could not be patch again.
Jul 29, 2009	Checkbook Subscriber	This firm provides superior service both in maintaining existing furnace and air conditioning equipment and in installing new equipment. This includes furnace, air conditioning, and heat pump.
Jul 23, 2009	Checkbook Subscriber	The estimator was extremely nice and very helpful getting us the documentation needed to obtain coverage under our home insurance policy. They scheduled the work and completed it within a few days -- in time for a large party that weekend.
Jul 20, 2009	Checkbook Subscriber	Great job. Very flexible in working with an older home. Provided great advice on complying with code.
Jul 20, 2009	Checkbook Subscriber	Have dealt with them for 30 yearws - the best around
Jul 14, 2009	Checkbook Subscriber	We called them after hours on a very cold Friday night when our furnace went out. Even though we do not have a service contract with them (they installed our air conditioning, but not our furnace), they called us back later that evening and promised to come out the next morning. The technician showed up early the next morning and replaced the part and we were able to enjoy our weekend.
Jul 13, 2009	Checkbook Subscriber	I have central air-conditioning and a separate zoned hot water heating system. The survey does not allow me to rate them separately. The air-conditioning service has been adequate. But, the hot water heating system service was so inferior that I had to cancel them.
Jul 07, 2009	Checkbook Subscriber	Davis and Davis is an excellent air-conditioning and heating firm
Jul 06, 2009	Checkbook Subscriber	Excellent service. Lower price than other firms
Jun 22, 2009	Checkbook Subscriber	Installed new units and were outstanding and very clean and neat.
Apr 09, 2009	Checkbook Subscriber	Used several firms before happening upon Davis and Davis- the best. No personnel turnover indicating good employer and competent employees
Oct 11, 2008	Checkbook Subscriber	Explained how our new furnace, central AC, humidifier, and thermostat worked and what needed annual maintenance. Also, found a small gas leak in our other gas lines. Good price and neat job, too.
Sep 12, 2008	Checkbook Subscriber	We have long had a service contract with Davis & Davis, which presumably means that we get faster service.
Aug 16, 2008	Checkbook Subscriber	Have used the company for many years. Always reliable.
Aug 14, 2008	Checkbook Subscriber	On furnace humidifier
Aug 14, 2008	Checkbook Subscriber	I've been blessed to have had Ivan as my regular technician for many years now. As a front-line player it is he who truly is the "face" of his company. D&D should be as happy to have him as much as I surely am.
Aug 14, 2008	Checkbook Subscriber	Amazingly good service

Aug 11, 2008	Checkbook Subscriber	We have a service contract with Davis and Davis and the only service we have had from them in the past year is routine maintenance.
Aug 06, 2008	Checkbook Subscriber	Extremely responsive, professional staff have provided outstanding service to me for more than 25 years.
Jul 23, 2008	Checkbook Subscriber	Some technicians innovative in finding solutions to problems. Other say components of system need to be replaced without trying to clean or repair them. Still charge for service. Need uniform direction from management.
Jul 17, 2008	Checkbook Subscriber	Pleasant technician. Competent work. did more than required, e.g. cleaned unit after repair.
May 21, 2008	Checkbook Subscriber	I have a contract with this company for heating and air-conditioning care at the change of seasons. They keep my furnace and air conditioner in fine shape.
May 09, 2008	Checkbook Subscriber	Davis and Davis are a great HVAC firm. Their people are get the job done right. Frankly we won't call anyone else. They perform our annual service and since they started we have not had any unpleasant surprises - you know, like finding your air conditioning broken on the first broiling hot day of summer.
Oct 17, 2007	Checkbook Subscriber	Initial visit suggested I needed a new thermostat. That didn't turn out to be the problem but D & D found the problem the second time around and didn't charge me. Also the reason the problem wasn't detected the first time seemed quite reasonable as it was a float detector which had been moved. Strongly recommend Davis. Used them for some 20 years.
Sep 26, 2007	Checkbook Subscriber	Scheduling Dept. was terrible. I waited all day without heat for what was supposed to be an 8 am appointment.
Sep 26, 2007	Checkbook Subscriber	Very responsive
Sep 18, 2007	Checkbook Subscriber	Excellent, knowledgeable service technicians
Sep 18, 2007	Checkbook Subscriber	I was very happy with the service....plus they came at short notice.
Sep 11, 2007	Checkbook Subscriber	They've gone the extra mile to keep our HVAC running ... even in the midst of blizzards.
Sep 11, 2007	Checkbook Subscriber	This firm dealt with a very complicated problem with my furnace. They worked hard to find the most constructive and cost efficient solution.
Sep 10, 2007	Checkbook Subscriber	Our air conditioner condensor was 20 years old when it stopped working. Davis & Davis gave a reasonable replacement estimate, came on time, installed the new unit perfectly and up to current code, and cleaned up so our basement (where the new coil was installed) was cleaner than when they arrived. We were very impressed.
Sep 04, 2007	Checkbook Subscriber	I was very pleased with this outstanding service selected from Checkbook ratings. Thank you.
Sep 03, 2007	Checkbook Subscriber	They are very competent, but show up late.
Aug 20, 2007	Checkbook Subscriber	We chose a different company to actually do the work but had no complaints about the service we received from Davis & Davis

Apr 05, 2007	Checkbook Subscriber	Davis and Davis came to repair the furnace that they replaced two years before (they replaced the AC the year before that). We got our check back from them in the mail. along with a note indicating that there was a warranty on the unit. We would have never known.
Feb 25, 2007	Checkbook Subscriber	I found that Davis & Davis repairmen do not sell new products (e.g., furnaces) - their sole job is to repair. Far better than a previous heating company (Utility Service Express), who tried to improperly diagnosed my furnace to see me a new one.
Nov 21, 2006	Checkbook Subscriber	A/C went out in July, service personel just came to house and said that it didn't sound good and was not working (I already knew that) His advice was to buy a new system, so he charged me \$150 for 10 minutes of work and left.I found another company to work on my system after that, but can only give D&D and adequate grade. They did not do anything wrong, but the were not much help either
Oct 25, 2006	Checkbook Subscriber	We haven't had service experience yet, just sales and installation.
Oct 25, 2006	Checkbook Subscriber	We were exceptionally pleased with Davis & Davis, from the estimate to the follow-up after the installation.
Oct 16, 2006	Checkbook Subscriber	Used Davis and Davis when I lived in Wheaton area. But I live in Laurel now and decided to go with a company more local. H & C is excellent. Davis and Davis was very good.
Oct 12, 2006	Checkbook Subscriber	Repair person showed up 2 hours late with no phone call to advise.
Oct 12, 2006	Checkbook Subscriber	Provides excellent service under my service maintenance contract. Professional, reliable and on time.
Oct 11, 2006	Checkbook Subscriber	This is a small business. They show no tendency to sell you added and unwanted service and products. These are nice, honest people to deal with.
Oct 10, 2006	Checkbook Subscriber	Better service on heating than on air conditioning.
Oct 08, 2006	Checkbook Subscriber	Davis and Davis put in a new H/AC system for us in October 2005. The work was excellent and fast, and it has worked flawlessly since. We've saved 36% on energy since they installed it. We've used their service cointract for fifteen years and recommend it too.
Oct 06, 2006	Checkbook Subscriber	Replace heating and AC including humidifier and programmable thermostat.
Oct 04, 2006	Checkbook Subscriber	For routine check of a/c equipment.
Oct 02, 2006	Checkbook Subscriber	not cheap alas
Oct 01, 2006	Checkbook Subscriber	We have service contract
Sep 20, 2006	Checkbook Subscriber	decent service, responsive to emergencies
Sep 19, 2006	Checkbook Subscriber	Good reliable service over a long period of time
